

SAFETY PLEDGE

Keeping your home safe doesn't have to be complicated.

Following some simple tips and understanding basic safety can go a long way in helping to protect your home and family. Start by taking our safety pledge today!

I PLEDGE TO...

Maintain working smoke and carbon monoxide (CO) alarms.

- ☐ Install smoke and CO alarms on each floor and in every bedroom.
- ☐ Test my alarms weekly to make sure they are working properly.
- ☐ Upgrade or replace my alarms every 10 years.

Learn to use fire extinguishers properly.

- ☐ Place fire extinguishers on every level of my home, especially in the kitchen, living room and laundry room.
- ☐ Learn how to use P-A-S-S: Pull the pin, Aim at the base of the fire, Squeeze the lever and Sweep side to side.
- ☐ Replace expired fire extinguishers.

Make a family escape plan.

- ☐ Identify two ways out of every room.
- ☐ Add escape ladders in upstairs rooms.
- ☐ Designate a place to meet out of the home.

Be aware of fire and CO hazards and know how to avoid them.

- ☐ Don't leave food unattended while cooking.
- ☐ Put out candles when leaving a room or sleeping.
- ☐ Recognize that fuel-burning appliances like gas stoves and water heaters can emit CO; get familiar with the symptoms of CO poisoning, which include headache, nausea and dizziness.

If you experience a fire OR think you have been exposed to CO, exit your home immediately and call 9-9-9
